DELIVERY &
EARNING POTENTIAL**

TIPPERS

We have the **RIGHT SOLUTION** for you!

SUPERIOR DESIGN, QUALITY, EFFICIENCY AND DURABILITY

OPTION OF STEP OR STRAIGHT FRAME BUILT FOR A VARIETY OF APPLICATIONS SUCH AS GRAIN AND OTHER AGRICULTURAL LOADS, SAWDUST, AGGREGATES, ASPHALT ETC AS WELL AS FOR THE WASTE AND RECYCLING INDUSTRIES

setting the standard

For over 30 years, Muldoon Transport Systems Ltd have designed, manufactured and supplied a range of specialised products and services throughout Ireland and the UK

From designing and manufacturing bulk bodies, tipper bodies, chassis etc to designing, manufacturing and installing blowing systems, we have provided our customers with the high levels of product quality and service they require in order to operate a successful business.

FACILITIES

At our modern purpose built factory, we utilise the attributes of modern engineering, equipment and machinery, together with the most up to date manufacturing techniques.

Our extensive resources puts us ahead of the competition in being one of the few trailer manufacturers who can design and manufacture from start to finish under one roof. This, combined with the knowledge and expertise of the tipper industry ensures production of a range of high quality products for an industry where performance, reliability and efficiency are a rule rather than the exception.

RESEARCH & DEVELOPMENT

The company has invested heavily in research and development and leads the way with innovative products and providing solutions where required. We are one of the few trailer manufacturers who have received awards for our innovative product designs and continue to work on developing many new products to benefit the transport industry.

QUALITY CONTROL

Our highly trained personnel work to very stringent standards of quality and all stages of production are carefully monitored, from incoming materials right through to the finished products leaving our premises.

BESPOKE SERVICE

At Muldoon, we aim to cater for our customers INDIVIDUAL requirements, each product designed and built to exact customer specification.

With many years experience along with our leading design team, we can offer advice, assistance and solutions to ensure you receive the best results.

muldoon tippers

tipper bodies

quality

Our tipper bodies are designed and built for optimum performance and reliability under the toughest of working conditions, offering maximum profits and minimum downtime for the operator.

Bodies are of high quality aluminium construction or steel, combining strength and durability with a low tare weight which allows for greater payloads and increased earning potential.

Painting and signwriting can be finished to customer specification

durability

chassis

All our chassis' are built using domex high tensile swedish steel, offering greater payload due to the lighter weight but retaining the durability associated with our previous chassis.

Chassis specifications include stepframe, steering axles, air suspension etc.

options ...

- Manufactured to Customer Requirements
- Domex High Tensile Swedish Steel Chassis
- Various Axle/ Suspension Available
- Drum or Disc Brakes
- Tipping Ram
- Tapered Body
- Auto sheet
- On Board Weighing
- Alloy Wheels
- Air Operator Rear Locking
- Sideguards
- Lockable Toolbox
- Various Floor Thicknesses
- Combination Opening Tail Door
- Sidewinder Positive Rear Steer System
- Vertical Rear Posts outside the body
(allowing unimpeded discharge)

The **NEW** optional **COMBINATION TAIL DOOR** allows easier discharge of difficult loads, greater flexibility and increased safety to operator

winning benefits

- SUPERIOR DESIGN & GEOMETRY
- SUPERIOR QUALITY
- LOWER STRESSES ON TRAILER
- GREATER PAYLOAD DUE TO LIGHTWEIGHT
- CHASSIS & BODY
- DESIGNED TO SUIT INDIVIDUAL CUSTOMER REQUIREMENTS
- 5.9 TONNE UNLADEN WEIGHT (68 CUBIC YD BODY)
- BETTER STABILITY & SAFETY OVER OTHER TRAILERS
- BETTER EFFICIENCY TAKEN IN TIME TO DISCHARGE LOAD IN COMPARISON TO OTHER TRAILERS
- **MORE EARNING POTENTIAL,
INCREASED EARNINGS £££**

OPTIONAL

Sidewinder Positive Rear Steer System

Experience the many benefits of the Sidewinder Positive Rear Steer System

- ... Increased Manoeuvrability giving access to sites where space is limited
- ... Increased fuel efficiency
- ... Reduced Tyre Wear
- ... Increased Payload
- ... Easier Everyday Driving
- ... Maximise delivery and earning potential

OPTIONAL combination opening tail door

Note: Operator stands to side of door remaining safe should any of the contents force door open.

Barn Door Option

Invaluable for discharging sticky type products

Hinged Door Option

simple opening mechanism

stay ahead of the competition with a muldoon tipper!

peace of mind ...

From order to delivery and for after sales service we put our customers first!

Attention to design, build materials, manufacture and finish quality ensures a high quality end product which is efficient, reliable, durable, requires less maintenance and lasts many years offering a safe investment.

We also pride ourselves in our dedication to AFTER SALES SERVICE which is geared towards complete customer satisfaction, we know down time is lost profits and make sure any time off the road is kept to a minimum.

With all of these factors, it is unsurprising Muldoon are the market leaders in the supply of trailers for use in the animal feed industry.

MULDOON: LEADING THE WAY ...

“ for the latest innovative design, superior quality and durability, a product that will give you the **MAXIMUM** return for your investment we have **the RIGHT** solution for you! ”
